Executive Lead, Clinical Programs at
Intermountain Healthcare

MASTER OF SCIENCE IN HEALTH CARE TRANSFORMATION
DELL MEDICAL SCHOOL AND MCCOMBS SCHOOL OF BUSINESS

Student Profile Video: Casey Leavitt

"It's one thing to see, and know, and understand the problems and barriers in health care, and it is another thing to have solutions and be able to solve those problems."

Current MS in Health Care Transformation student Casey Leavitt, executive lead of clinical programs at Intermountain Healthcare, shares her health care journey and what she's enjoying about being a student in the program.

Welcome Audrey Walter!

We want to welcome Audrey Walter to the Value Institute team as the Associate Director of Community Strategy and Engagement. She will lead the Value Institute's community strategy to build the institute's position as a global thought leader and convener of experts in high-value health care.

Experiences that Matter in Bipolar Disorder

Executive Director Elizabeth Teisberg, Managing Director Scott Wallace, and Outcomes Program Officer Kathleen Garberry co-authored a research article where they seek to better characterize the shared experiences and obstacles of bipolar disorder within the United States from the patient's perspective. Their work was a collaboration

If you have ideas on how to grow and build this community, she wants to hear from you! Please connect with her on [LinkedIn](#) or via [email](#).

INTERPROFESSIONAL HEALTH SHOWCASE

Interprofessional Health Showcase

Congratulations to MS in Health Care Transformation students Hannah Rashdan, Georgia Williams, and Attilie Carrig on being finalists at the 5th Annual Interprofessional Health Showcase in the Best in Community Engagement & Best in Health Innovation categories. Their project, "An Evaluation of Outcomes, Diagnostic Concordance and Quality of Life for Patients of a Teledermatology Pilot Service at a Student-Run Clinic," seeks to reimplement a teledermatology consult service for people experiencing homelessness.

Dimitri Dimitroyannis and Kevin Ross also presented their work, "Successful Reduction of Smartphone Screenshot in Adults: A Person-Centered, Metadata Analytics-Informed Intervention."
